Top 5 Gardening Tips for June:

- Mulch the garden and around trees to retain moisture in the soil and fight weed growth
- Fill in empty spaces in flowerbeds or borders with annuals such as zinnias, container sunflowers and impatiens
- Cut bouquets early in the morning and get them into deep, slightly warm water quickly to keep them fresh and beautiful
- Check your irrigation system for any breaks and leaks as many could have occurred during winter and spring
- Set up your irrigation system on automatic timers
